# Background

Cutcombe is a rural parish situated on the edge of Exmoor with a small and disparate population. The Moorland Hall and Recreation Ground Trustees are a registered charity managing the sports pavilion, recreation ground and multi-use games area situated at Wheddon Cross, in the heart of the parish.

The Trustees believe that the existing pavilion is inadequate and has reached the end of its useful life and, if left, will become unsafe for current users. Additionally, for those clubs currently using the pavilion, the changing facilities need to comply with the requirements of the Football Association and English Cricket Board. A new Pavilion would offer changing and social facilities to both formal and informal uses of the recreation facilities.

Through this survey and other planned activities, the Trustees are looking to engage the local parish community and those in neighbouring parishes who use the current facilities, to gain their views and gauge the level of support for the proposed project. They also wish to establish how the facilities could be opened up to wider sport and recreational use for the community and visitors.

The Trustees, with the help of a grant from The Big Lottery fund, has commissioned the Community Council for (CCS) to undertake a survey of all inhabitants in the area with the following Aims:

## Aims

- To gauge the level of community support for the replacement of the existing Sports Pavilion with a new structure that meets the needs of the local football and cricket clubs. And establish the level of community engagement through voluntary support of project as it progresses and beyond completion
- Explore which activities and sports people would like to see offered in future in the new Sports Pavilion that would open it up to a wider community
- Establish current use of the Recreation Ground's Multi-Use Games Area
- Consider the use of social facilities in the new Pavilion under the terms of an Occupation Licence

## Methodology

180 paper surveys were distributed and collected by volunteers to all households in the parish with 54 paper responses and 26 online responses giving a 44% response rate. The survey was also available to complete online.

In addition to the survey link being included in the paper survey, it was also promoted via the benefice parish magazine.

Research was conducted between 30 March – 23 April 2016.

The prize draw winner was drawn using a random number calculation on 31 May 2016.

# Moorland Pavilion and Recreation Ground Summary

## Demographic data:

- 80 people participated in the survey, representing 196 household members. The 44% response rate is statistically significant, and in CCS's experience this is a strong response rate from a community, particularly on a single issue consultation
  - The majority of respondents live in Cutcombe parish (80%)
  - The small majority of respondents are female (54%). 21-40 year olds are the largest group represented by nearly a third of respondents (30%). The remaining age groups above 40 are evenly represented with around 1 in 5 respondents. There is no representation in 16 and under and low representation in 17-20 age groups. 20 year olds and under did however make up 1 in 5 of all households, and it may therefore be reasonable to suggest that the views of younger children in this group (under 11) are represented through the adults completing the survey
  - Around 2 in 3 people live in a single or two person household (60%). Further analysis shows that nearly 1 in 3 respondents are families with children/young people aged 20 or under with the large majority of these have children aged 16 or under (30% - 22 families).
- 
- The **overwhelming majority would like to see a new Sports Pavilion** that can be used by the local cricket and football clubs as well as occasional users of the field and all-weather games area (more than 9 in 10 people - 95%). Emerging themes from comments are the importance of sport in rural community life and for community cohesion, the poor state of the current facilities and the impact that the loss of the Pavilion will have with existing sports teams
  - A good reflection of community support is that 3 in 4 parishioners (62 people) have **offered their help as the Community Hall/Sport Pavilion project progresses**. Word of mouth and help with fundraising events are offered by the majority. Notably, a sizeable number of respondents (21% - 13 people) are also offering their help during the project's construction phase (+ 9% compared with similar CCS facilities surveys)
  - The preferred option for **replacing the existing Pavilion** is to completely rebuild on the existing footprint and extend to include a separate changing area, showers and toilets, in addition to a standard kitchen and eating area
  - The **facilities** perceived of primary importance in the new Pavilion are a self-contained area with showers and toilets. Other facilities sought by the majority include: kitchen, covered external area for watching sport, outdoor tap for washing off shoes, indoor and outdoor seating, separate social area and a license to serve alcohol. Most comments are about the inclusion of disabled facilities, specifically that the new build should include ramps (scooters/wheelchairs), toilet and access to social area and covered seating
  - The **playing field and all-weather area** are currently well-used by the parish with 3 in 5 people accessing it. A third play cricket, with a similar number attending the village fete and other community-wide activities (flower show, community celebrations). The field is also used to play football. Overall the area appears vibrant and has a wide variety of other uses: watching children/grandchildren play; walking/exercise; watching sport; children using the play area and taking part in School/Pre-school organised events; tennis; and bike riding for children in all-weather area are among the more frequently enjoyed activities

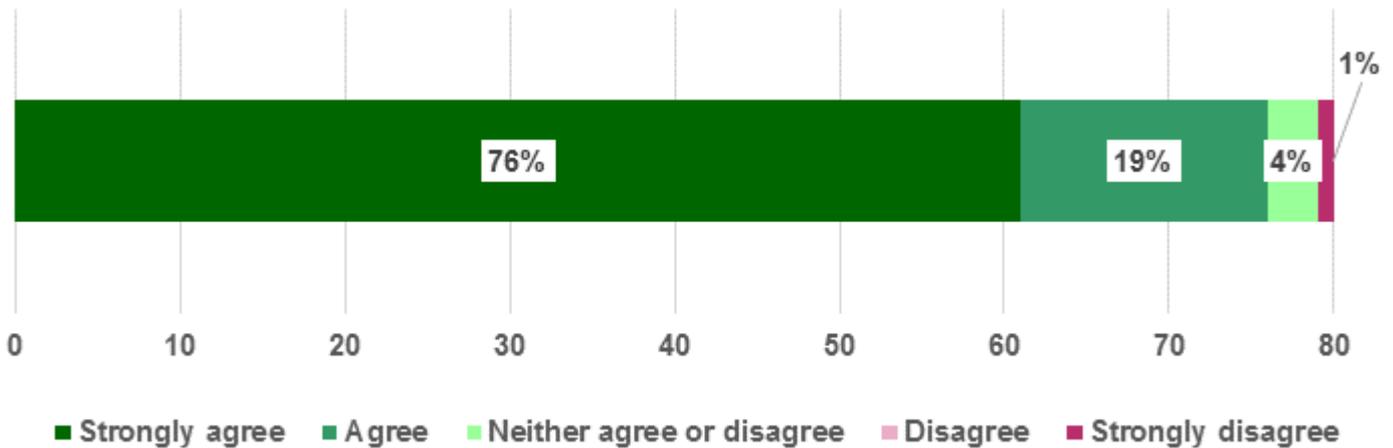

- A sizeable number of respondents do not attend any **activities outside Cutcombe parish** (2 in 5 people – 41%). Of those taking part in groups and activities outside the parish, they do so because **there is currently nothing offered in the parish meeting their need** (albeit some activities are less likely to be provided locally e.g. swimming/canoeing). Nearly 1 in 5 of these respondents also feel there is **no suitable venue**
- Exercise and Sport-related classes/activities are by far the most widely attended **outside the parish** (2 in 5 people). The most common are: cricket (including junior U8); Pilates; swimming; canoeing/kayaking, football, mountain biking/cycling; keep fit and rugby. When comparing with other similar surveys conducted by CCS, common areas such as adult education, Arts and crafts and dance did not appear in this survey sample, which may present a further opportunity to be explored in terms of interest in provision within the parish
- There is a wide range of interest across the **suggested activities**, unsurprisingly the most popular include cricket, football and tennis (all activities currently offered at the existing venue – some through sports clubs). Cricket is the most popular, with more than half of respondents (56% - 35 people). To open up the facility to a wider community, holiday activities, particularly for primary school children would be popular (sought by more than 1 in 3 – 23 people) - and to a lesser extent for secondary age children (1 in 5 people – 11 people). Other sports/activities raised by 5 or more people (in order of popularity) include boules/petanque, tag rugby, netball, basketball, orienteering, croquet, athletics and darts
- The large majority of more than 2 in 3 people did not support the suggestion that the **Moorland Hall Sports Club should have sole use of the social facilities** in the new Pavilion (67% - 49 people). The majority felt the Pavilion should be open to a wide variety of users and clubs, and that it would secure the venue's financial viability

# Findings

1. Cutcombe parish needs a new Sports Pavilion for use by local football and cricket clubs, and occasional users of the field and all-weather games area. To what extent do you agree or disagree that these facilities are needed?

Chart 1 – Need for new Sports Pavilion

Base: 80

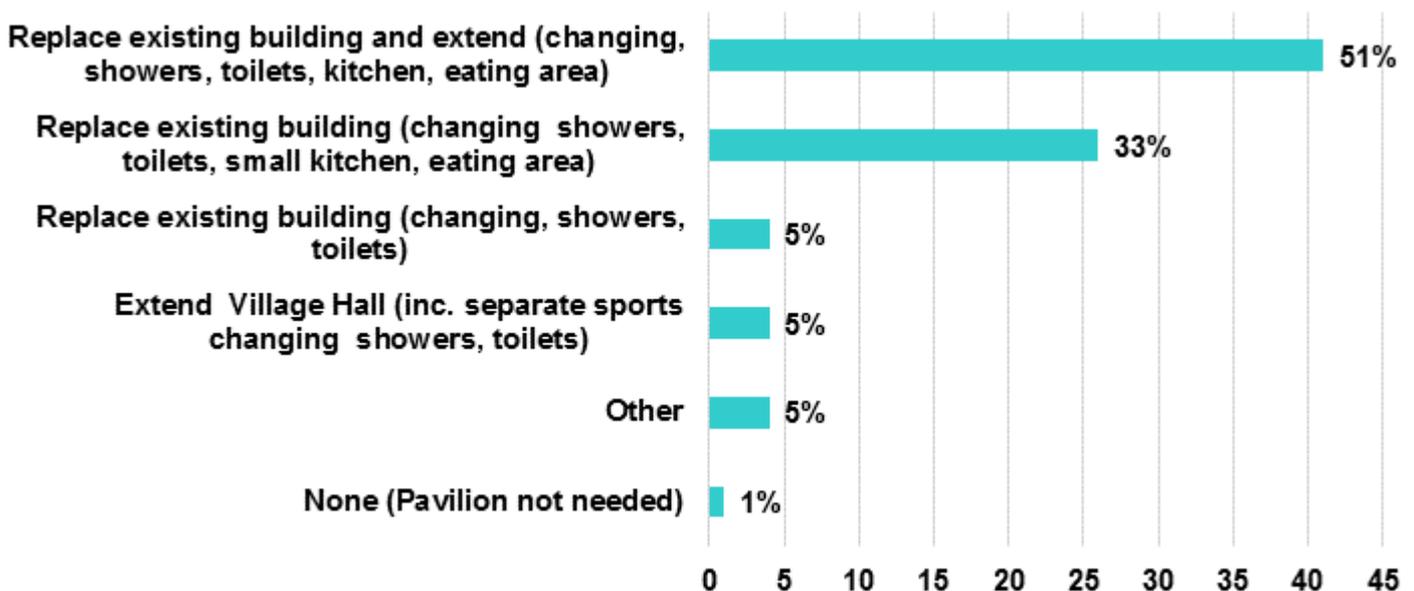

The overwhelming majority would like to see a new Sports Pavilion that can be used by the local cricket and football clubs as well as occasional users of the field and all-weather games area (more than 9 in 10 people - 95%). Only 1 person strongly disagreed with this proposed project - Chart 1.

More than a third of respondents commented (29 people) which can be found in Appendix 2. Emerging themes are the importance of sport in rural community life and for community cohesion, the poor state of the current facilities and the impact that the loss of the Pavilion will have with existing sports teams.

2. Please indicate below which option you would prefer for replacing the Pavilion? (tick one)

Chart 2 – Preferred option for Pavilion replacement

Base: 80

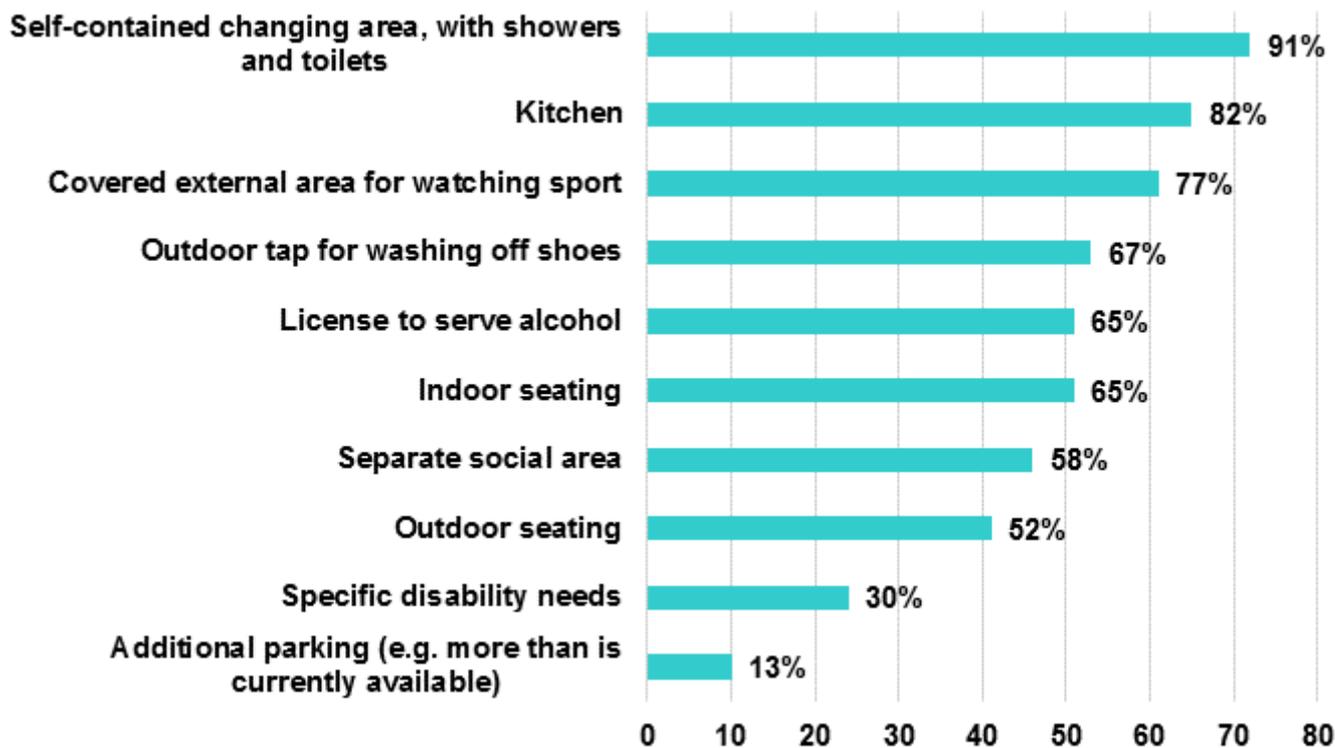

The majority (51% - 41 people) would like to see the existing Pavilion replaced and extended to include a separate changing area, showers and toilets, in addition to a standard kitchen and eating area. A further third of respondents would settle for a replacement building with all the facilities above, but with a smaller kitchen – Chart 2.

### 3. What facilities do you think the new Pavilion should have? (tick any)

**Chart 3 – Facilities preferred in the new Pavilion**

Base: 79

The main facilities perceived of primary importance in the new building are self-contained changing area with showers and toilets (9 in 10 people). 4 in 5 respondents would like the new Pavilion to have a kitchen facility, correlating closely with the findings in Question 2. A covered external area for watching sport is sought by 3 in 4 people. Around 2 in 3 would like an outdoor tap for washing shoes, a license to serve alcohol and indoor seating. While more than half would like a separate social area and outdoor seating – Chart 3.

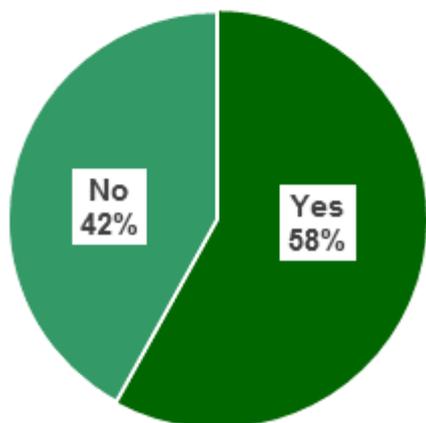

Many commented on the needs for disabled people, some stating that these should be standard in any new build, specific disabled facilities highlighted include ramps (scooters/wheelchairs), toilet and access to social area and covered seating.

One other respondent would like to see a separate toilet in the Pavilion that is not part of a self-contained changing area, another commented that an alcohol licence should only be for sport games and not to form a pub.

#### 4. Do you currently use the playing field or all-weather area? (current use and how often used)

**Chart 4 – Current level of use of playing field/all-weather area**

Base: 76

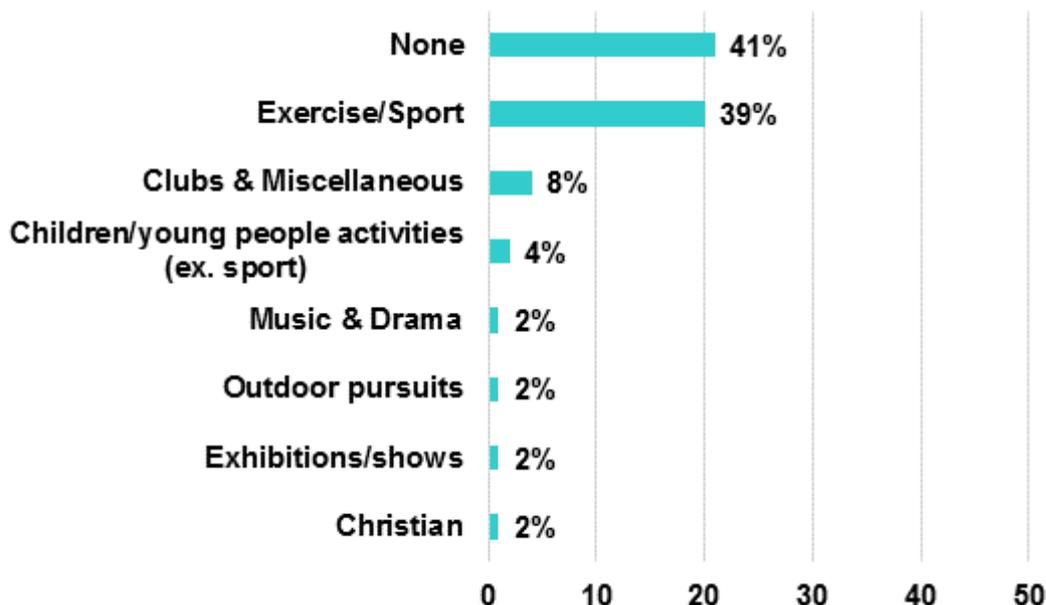

Nearly 3 in 5 respondents (44 people) currently use the playing field or all-weather area - Chart 4.

The majority of users play cricket (32%). A similar number attend the village fete or take part in community activities (including the flower show) and celebrations (29%). 1 in 5 also use the field for football (20%). The area has a wide variety of other uses: to play with/watch children/grandchildren play (16%); for walking/exercise and to watch sport (11%); play area and School/Pre-school organised events (9%); tennis (7%); bike riding for children in all-weather area and darts (5%) and for picnics, general enjoyment, playing sport, dog walking and Exmoor pony displays.

#### 5. What activities do you attend *outside* the parish?

**Chart 5 – Activities attended OUTSIDE parish**

Base: 51

The majority of respondents answering the question attend no activities outside the parish (2 in 5 respondents – 21 people).

Exercise and sport-related classes/activities are the most widely attended outside the parish by around 2 in 5 respondents answering this question – Chart 5. The most common are: cricket (including junior U8) (5); Pilates (4); swimming (3); canoeing/kayaking, football, mountain biking/cycling (3); keep fit and rugby (2). 2 respondents are involved in a Youth club (either attending or as a Trustee/volunteer). Other areas mentioned are dog training, Exmoor charities, hunting, Young Farmers and truck shows.

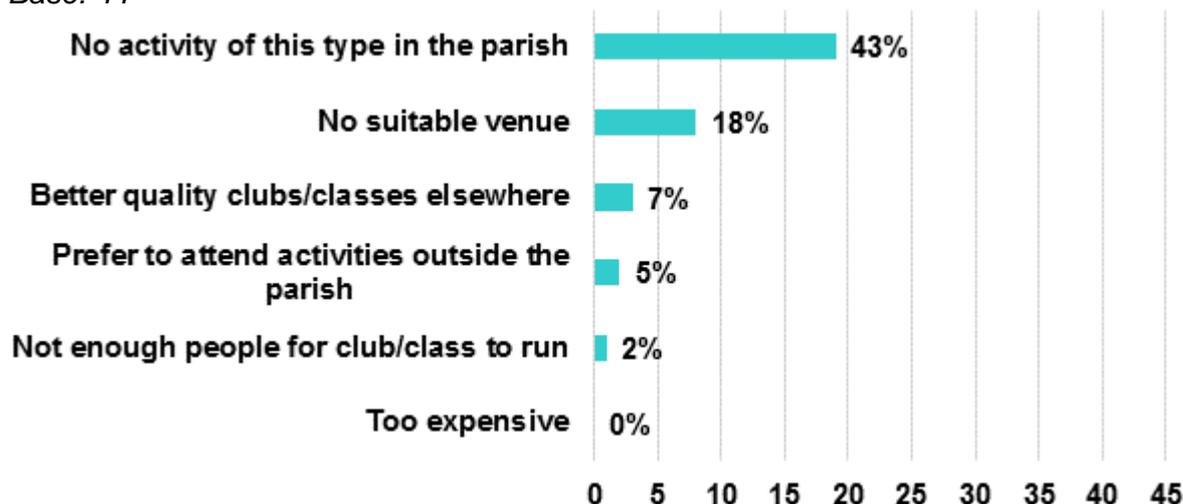

When comparing with other similar surveys conducted by CCS, common areas such as adult education, Arts and crafts and dance did not appear in this survey sample.

Specific locations mentioned outside the parish are Dulverton and Wootton Courtenay for fitness classes, and for Rugby.

**6. What prevents you from attending this kind of activity in Cutcombe parish? (tick any)**

**Chart 6 – Barriers to attending activity in Cutcombe parish**

Base: 44

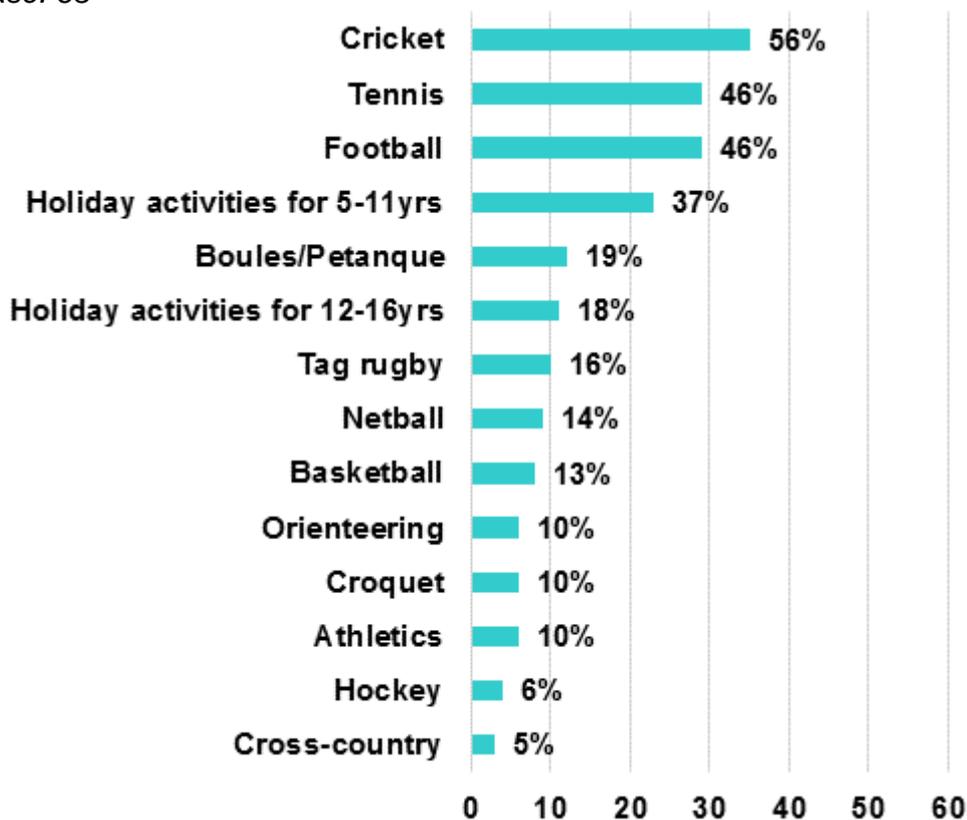

More than half of respondents answered this question (55%), and two in five attend groups/activities outside the parish because of the lack of these in their locality (43% - 19 people). These activities are: *Sports*: Pilates/keep fit, swimming and water sports, mountain biking/cycling, rugby, junior cricket, martial arts, netball, and tennis. *Clubs and other*: youth club, church, dog training club and theatre.

Additionally, nearly 1 in 5 feel there is currently no suitable venue to suit their needs (18% - 8 people). A small number (3) prefer to travel outside the parish for interests and hobbies – Chart 6. Others do not attend activities as they are restricted through health/mobility/age (4) or lack of time (3).

**7. What activities/clubs would you or someone in your household be interested in attending at the new Sports Pavilion? (tick any)**

**Chart 7 – Most popular future activities**

Base: 63

Cricket appears the most popular future use for the new Sports Pavilion with more than half of respondents (56% - 35 people). This is closely followed by football and tennis (46% - 29 people respectively). All three are sports offered in the currently facility.

To open up the Pavilion and facilities to a wider community, holiday activities, particularly for primary school children would be popular (sought by more than 1 in 3 – 23 people) - and to a lesser extent for secondary age children (1 in 5 people – 11 people).

Other sports/activities raised by 5 or more people include boules/petanque (12), tag rugby (10), netball (9), basketball (8), orienteering (6), croquet (6) and athletics (6) – Chart 7. Darts was additionally raised by 5 people.

Around a third made additional comments and suggestions with a summary of the most common themes below:

**Exercise/Sport:** Darts (5), Badminton (2), Pool (2), Skittles (2), Girls football, Pilates, Running club, Under 12 cricket team, Keep fit for older people, 'It's a Knockout' and mini marathon

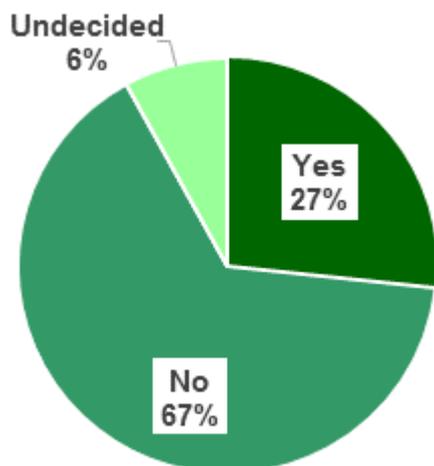

**Young people:** Youth club for local children and other surrounding areas

**Other:** Sport on TV,

## 8. Do you think that the Moorland Hall Sports Club should have sole use of social facilities in the new Pavilion?

**Chart 8 – Views on sole use of social facilities in new Pavilion**

Base: 73

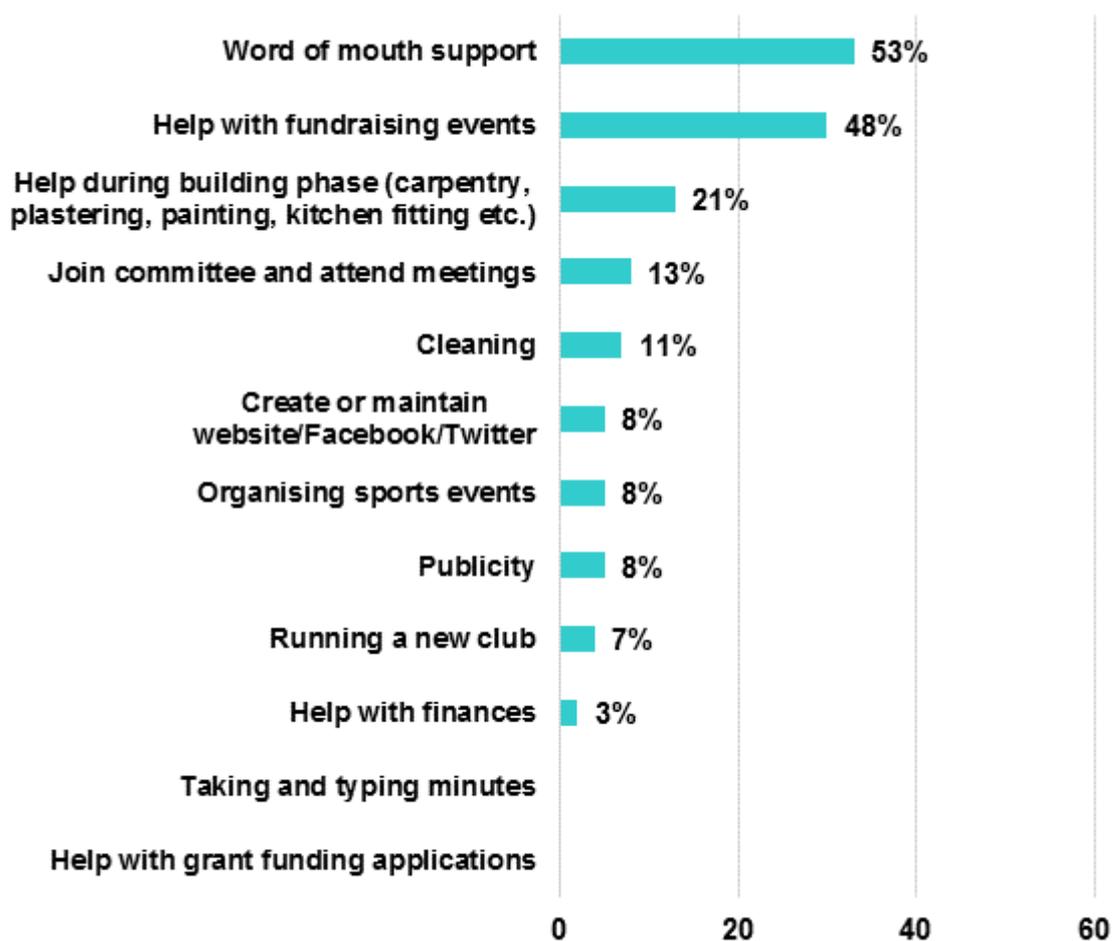

9 in 10 respondents answered this question. The large majority of more than two thirds did not support the suggestion that the Moorland Hall Sports Club should have sole use of the social facilities in the new Pavilion (67% - 49 people).

More than 2 in 5 respondents commented on this issue (44% - 32 people). The majority felt the Pavilion should be open to a wide variety of users and clubs, and that it would secure the venue's financial viability (see Appendix 2 for all comments).

## 9. What help might you be able to give as we progress with the project? (tick any)

Chart 9 – Community help offered

Base: 62

More than three quarters of respondents offered help as the Community Hall/Sport Pavilion project progresses (78% - 62 people). Word of mouth support and help with fundraising events are by far the strongest ways in which these members of the community would show support (53% and 48% respectively). A sizeable proportion are also offering their help during the project's construction phase (21% - 13 people, and + 9% compared with similar CCS facilities surveys). Details of respondents willing to be contacted for help can be found in Appendix 4.

Other suggestions:

**Clubs:** Either adult aerobics or kids club; I would like to see more clubs for young people to encourage more young local people to play sports in the village and I am happy to help any young cricket or football teams to try to keep sport in the village; Darts team

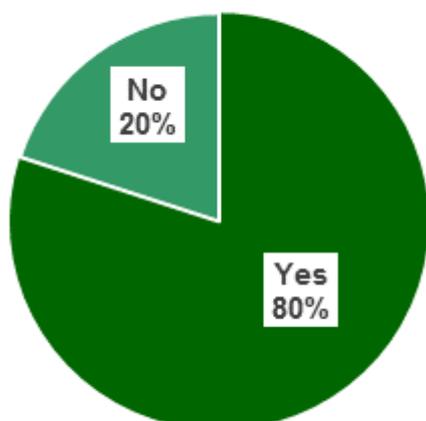

**Trades:** Electrical installation work; Already help, there is a lot of interest in local tradesmen who are willing to give their time, so perhaps a self-build project is the way to go.

**Other:** Donation; Already on The Sports Club committee, happy to stay on and help where I can.

## 10. Household – Demographics

**Chart 10 – Do you live in Cutcombe parish?**

Base: 80

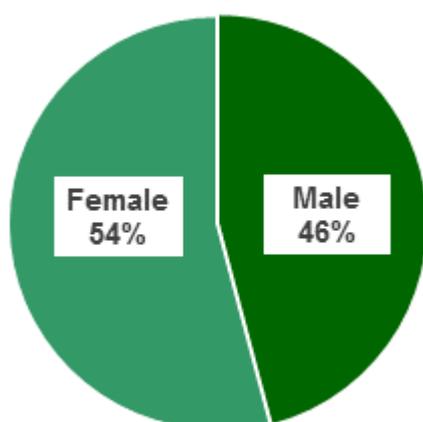

4 in 5 respondents (64 people) live in Cutcombe parish. Of the remaining 16 respondents, 3 live in Winsford (1 who is moving to Cutcombe, with young children already attending the school, and family taking an active part in parish life).

One respondent is from Kent, had previously lived in the parish and hoped to return – also had links with family living in Cutcombe parish.

Others live in Exton, just outside Wheddon cross on the Dulverton road, Luccombe, Luxborough, Minehead, Porlock, Raleighs Cross, Roadwater, Watchet and Williton.

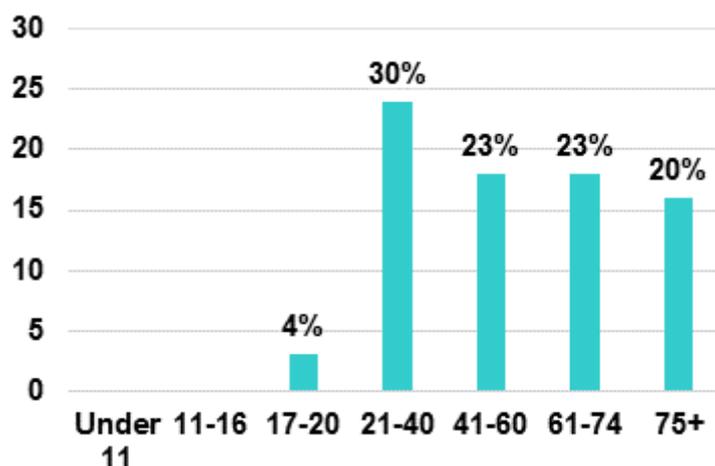

**Chart 11 – Gender**

Base: 74

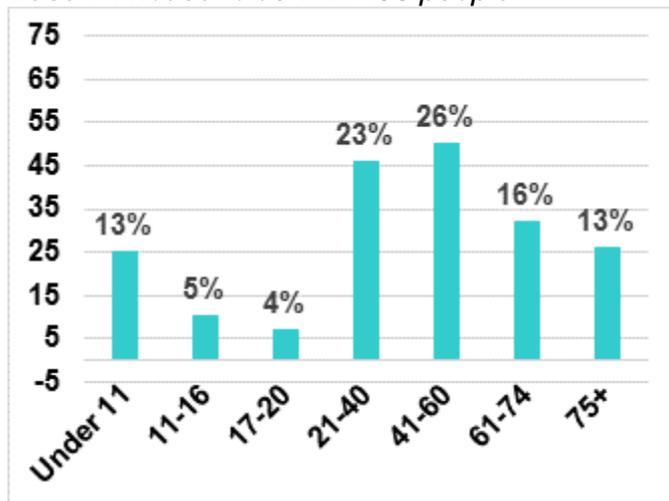

**Chart 12 – Age**

Base: 79

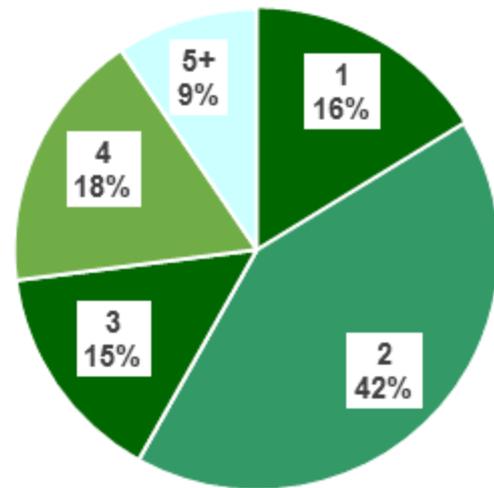

The small majority of respondents are female (54%) - Chart 11. 21-40 year olds are the largest group representing by nearly a third of respondents (30%). The remaining age groups above 40 are evenly represented with around 1 in 5 respondents. There is no representation in 16 and under and low representation in 17-20 age groups – Chart 13.

**Chart 13a – Overall household age groups**  
*Base 74 households with 196 people*

**Chart 13b – Size of current household**  
*Base 74*

41-60 year olds are narrowly the largest overall population group represented by 1 in 4 respondents (26%), closely followed by 21-40 year olds (23%) – Chart 13a.

Around 2 in 3 people live in a single or two person household (60%) – Chart 13b. Further analysis shows that nearly 1 in 3 respondents are families with children/young people aged 20 or under (32% - 24 families), and the large majority of these have children aged 16 or under (30% - 22 families).

**Additional comments and suggestions**

Some respondents made additional comments and suggestions which can be found in Appendix 2.

## Appendix 2 – Verbatim & end of survey ‘Additional Comments’

### Q1 – NEED FOR NEW SPORTS PAVILION

#### ***All comments made by respondents who strongly agree/agree***

The facilities have been a vital part of the community development. There is a growing requirement for sporting+ recreational facilities from a growing population and tourist trade.

I feel this is an important part of the village life by providing sporting facilities for all ages.

For the benefit of all ages and sports lovers, encourage more exercise to benefit health and wellbeing.

Without sporting facilities the young people of the village have nothing.

It's important to keep sport going in a rural community.

If we don't have a new Pavilion then the end of sports in the village is inevitable.

Would be an absolute shame if the village didn't have a sports pavilion.

Many sports fixtures held. Use as a facility for fund raising events E.G finish for a treasure hunt.

When possible all villages should have a sports hall for the youths to play and the old to watch.

Important to have continuity in order to keep the space available for the community.

Wheddon Cross is a thriving, working village with a number of young people.

The younger generation need a community gathering place that people want to go to!

#### ***Existing sports clubs***

Without a pavilion the existing sports clubs will cease to exist, and there will be no chance of new sports clubs forming.

We need new facilities to continue playing football and cricket as the present one is starting to fall down.

The existing football and cricket team need these facilities and it would be a shame to lose these teams especially as we are in a rural area where we have very limited things going on - let's not lose what we have.

Teams will fold if we do not have this facility.

Football and cricket teams won't be able to keep going if new pavilion isn't built soon as the existing pavilion is falling apart and is beyond repair.

#### ***Current building appearance***

This building has been a focal point for so many occasions but has come to the end of its life - it need replacing.

The old clubhouse is falling down and not fit for purpose.

The current Pavilion looks a little shabby.

These facilities are old and outdated!

The existing building is in a very bad state.

The existing building is very dated, not very inviting (not enough to make people want to stay for long!).

As a member of the club and the football and cricket team the facilities need replacing as they are old and it is not cost effective as a club to keep repairing the current building.

#### ***All-weather facilities***

The all-weather courts could do with having a roof over the top so it could be used for all weather occasions.

Think that the weather court should have a roof on it so it can be used in all weather conditions.

#### ***Generally***

As this is a relatively remote ground without it our children and sporty adults would have to travel to. Even for events hosted by the local school and preschool, if using the field it helps to have these facilities on hand. Lifelong pavilion user, played cricket, supported existing pavilion, but question if there is the commitment of the younger villagers.

## **Q2 – COMMENTS ON PREFERRED OPTIONS FOR REPLACING THE PAVILION**

If cricket or football is to continue then above tick would be good. The building would need to have full support of community to be better linked to playing field and Hall at present.

Extend the existing toilets for changing facilities for both teams, move children's play area to unused land opposite moorland mall, extend parking area where play area is without encroaching on football pitch or cricket boundaries, giving better value for money and no purchased land and extra parking for visitors and locals all year.

Why not knock down the existing village hall, sell that land or use as car park AND build one multipurpose facility on the field, the present hall is dangerous when using field as well with the main road to cross. ONE building for all purposes would be perfect, but on the field not where the hall is now.

## **Q8 – VIEWS ON MOORLAND HALL SPORTS CLUB'S SOLE USE OF SOCIAL FACILITIES IN NEW PAVILION**

### ***Comments from responses who DISAGREE with sole use***

Whilst football and cricket take priority, it is a good idea for other groups to have use of the facilities for community activity - sports, children's parties as play space which is safe is available right there. No roads to cross. Also, for when Moorland Hall is booked up. Wheddon is expanding so all options for local activity should be kept open.

No. The social area should be open to members and guests after a sporting event has been held on the village sports field or all weather court so everyone can relax and bring the parish and local clubs together and it should be available for all of the parish and local groups to use to hold meetings or activities such as young farmers but it should be run by the Moorland Hall Sports Club committee for the general day to day running of the building.

If the facility is there it should be used as much as possible - also there may as well be an income from it.

The Moorland Hall caters for all ages, groups and activities. So why not the new Pavilion, unless shown there is no need for two such facilities.

I think it should be open to the public for hire such as birthday parties etc. and also for general use to the public.

It should be up to any group/club wishing to hire the facilities.

Open to other users.

It would be nice if other villages could hire it.

The building should be made available to anybody, including those outside Cutcombe parish, for hire in order to keep it financially viable.

I think it should be opened for the community to use as well, as it's a community project and a lot of us would like to see it used by all, families, parties etc.

It would be good for the village to have visiting teams hire/play on the field.

If village hall is in use, then the pavilion could be used.

It could serve as a meeting place for outdoor activity in conjunction with "Exmoor Festival" In August for example.

I think it should be open to public use and for locals to hire it out for birthday parties, special events and other events.

Would give you more flexibility if facilities could also be hired out as appropriate.

It should be a building for the community. It should help support the activities that happen on the field.

Other uses would bring in extra finance.

The Moorland Hall just oversees the running of the club. It is open to all to use and should stay like this. Being open to the public would see it have more use

The more organisations that use it the better.

Outsiders should pay a deposit & a proper rate for using - could bring in good income.

It would be more sustainable surely if they open themselves up to be used by others.

If outside clubs/organisations wish to pay for hire that would be good.

***Comments from respondents who AGREE with sole use***

Yes but should be available to be hired out for outside events.

The Sports Club can oversee other users such as youth club, or events taking place on the field.

Should continue as it is i.e. the Sports Club is just a committee that oversees the day to day running of the clubhouse, and at the present lets anyone use the facilities (local or not).

The moorland hall sports club is just a committee. Football and cricket clubs should have main use alongside any new activities/social events.

That depends on what is meant by "social facilities" and whether or not the sports club have control of the bookings. i.e. the sports club should have ownership of its running but be able/encouraged to hire it to other events.

***Other comments***

Would it be possible for them to run it but other people be able to apply to use.

As a member of Moorland Hall and Rec. committee I wholeheartedly support physical recreation for all.

Don't know. Good to keep under them but also hiring out to other people maybe an idea?

I'm not sure of the implications of this.

**ADDITIONAL COMMENTS AT END OF SURVEY**

It would be great if we had one facility on the field, the present hall is situated in the wrong place.

It seems to me that the option to extend the village hall to include self-contained changing area etc. offers the best chance to combine that with use of the existing kitchen and dining facilities rather than build a completely separate facility with duplication i.e. sweat the existing assets of the village hall.

I wish you luck in whatever is decided - will help with anything when I am over x x I think this building is needed - I am presuming the Moorland hall committee will be its guardian? Or will it have its own committee? I feel that it's an extension of the Moorland Hall - you don't want opposition!!

Cutcombe would really benefit from a new pavilion. The existing shelter is severely dated. This would allow current clubs to expand and provide a meeting space for additional clubs to use the sports facilities.

As the present chair of the sports club I think it's vital that we replace the existing building for future use by the people of the village.

## Appendix 3 – Full survey results tables

1. Cutcombe parish needs a new sports Pavilion for use by local football and cricket clubs, and occasional users of the field and all-weather games area. To what extent do you agree or disagree that these facilities are needed?

Answer Options	Strongly agree	Agree	Neither agree or disagree	Disagree	Strongly disagree	Response Count
	61	15	3	0	1	80
Please tell us more						29
<b>answered question</b>						<b>80</b>
<b>skipped question</b>						<b>0</b>

2. Please indicate below which option you would prefer for replacing the Pavilion? (tick one)

Answer Options	Response Percent	Response Count
Replace existing building and extend - with changing area, showers and toilets, a kitchen and eating area	51.3%	41
Replace existing building - with changing area, showers and toilets, a small kitchen and eating area	32.5%	26
Replace existing building - with changing area, showers and toilets	5.0%	4
Extend the Village Hall to include a separate sports changing area, showers and toilets	5.0%	4
Other (please tell us)	5.0%	4
None – Pavilion not needed	1.3%	1
<b>answered question</b>		<b>80</b>
<b>skipped question</b>		<b>0</b>

3. What facilities do you think the new Pavilion should have? (tick any that apply)

Answer Options	Response Percent	Response Count
Self-contained changing area, with showers and toilets	91.1%	72
Kitchen	82.3%	65
Covered external area for watching sport	77.2%	61
Outdoor tap for washing off shoes	67.1%	53
License to serve alcohol	64.6%	51
Indoor seating	64.6%	51
Separate social area	58.2%	46
Outdoor seating	51.9%	41
